

MelodyHub

Kunle Li, Fulun Ma, Chenglin Zhang (alphabetical order)

Sprint #1 Presentation

What is MelodyHub

A platform for users to share songs (their own singing or creation), or any interesting sounds/music pieces.

Users should be aware of the copyright of the music pieces.

What is MelodyHub

List of functionalities

1. **Registration and Login feature:** OAuth and email verification
2. **Music Upload:** Upload and delete

8. **Listen Together:** WebSockets live listening room

A decorative plaid pattern with diagonal lines in red, green, and yellow on a dark blue background, located on the left side of the slide.

What we have so far: Sprint #1

1. **Google OAuth Login**
2. **Main Page (static)**
3. **User Profile Page**
4. **Music Upload Feature**

Original Goals

1. Google OAuth Login & **Email Verification**
2. Main Page (**Still working on the layouts**)
3. User Profile Page (**Some bugs**)
4. Music Upload Feature

Showcase

What we want to do next

1. **Music Browse:** Main page and all songs page, like/dislike music
2. **Search:** Songs, Playlists, Users
3. **Detailed Pages:** Songs, Users, Playlists
4. **Music Play:** Minimize
5. **Listen Together:** WebSockets live listening room

Obstacles

It seems a little bit difficult to split the tasks because of task dependencies.
